

### IN THE DRAWINGS

The proposed drawing corrections filed on September 3, 2002 were disapproved because they were not in the form of a pen-and-ink sketch showing changes in red ink or with the changes otherwise highlighted.

The Applicant respectfully submits that the proposed drawing changes were correctly submitted and requested approval of the drawings filed on September 3, 2002. A copy of Figure 11 was enclosed showing proposed amendments to in red ink. The reference numerals 1154 and 1156 were clarified so that they do not appear to read 1054 and 1056 and these changes were shown in red ink.

The Applicant did not submit pen-and-ink sketches showing the changes in red ink for Figures 9, 10, 12, 14, 15 and 16 because nothing was added to these figures. Instead, the Applicant chose to highlight the changes by describing in detail in the Remarks the items removed from the drawings. That description is reproduced below for the Examiner's convenience.
